Caring for a partner, child, relative or friend with an illness or disability, or for a person who is frail, can be a rewarding task. But however much we love the person, caring can become demanding and stressful, and sometimes it's difficult without support.

Knowing what help is available, and how to access it is important. At VOCAL we can help.

Since 1995, over 1,000 carers have attended VOCAL's training courses to learn from professionals and from others in similar situations what they are entitled to and how to get support.

VOCAL's 'Caring with Confidence' courses help you to find the best solutions for your own situation. Getting the right information from the beginning can help you plan and ensure a better quality of life for you and the person you care for.

VOCAL's 'Caring with Confidence' learning programme is funded and supported by NHS Lothian and City of Edinburgh Council.

All courses are free to carers and we offer travel and alternative care expenses, if you need someone to look after the person you care for while you attend this course.

If you are unsure about committing to this course, return this slip and we will contact you with further details.

Alternatively, just ring Jane Greenacre on 0131 622 6666 for more information.
